EDUCATION

- 2016 - 2020 Bachelor's Degree at **University of Engineering and Management** (GPA: 8.48/10.0)
2016 Higher Secondary Exam (C.B.S.E Board) at **Kendriya Vidyalaya, Chittaranjan** (72.8 %)
2014 Secondary Exam (C.B.S.EBoard) at **Kendriya Vidyalaya, Chittaranjan** (CGPA: 8.8/10.0)

WORK EXPERIENCE

Cognizant (Associate)

Aug 2020 - Apr 2023

- Developed web-based application using Java, Spring Boot, Angular, MySQL, JUnit framework.
- Worked with stakeholders to gather requirements and translate them into technical specifications.
- Ensuring that software functionality is implemented with a focus on code optimization and organization.
- Troubleshooting application issues and coordinate issue resolution with operations, functional, and technical teams.
- Documented software designs, processes, and procedures to ensure continuity and maintainability.

PROJECTS

Return Order Management — Java, Spring Boot, Angular

[Link](#)

- Supply chain Management Organization wanted to automate the return orders feature, by classifying them to repair or replacement.
- Using Microservice Architecture and technology like Spring Boot, spring cloud gateway, jwt authentication, MySQL for back-end and Angular for front-end

TinyURL — Java, Spring Boot, MongoDB

[Link](#)

- The aim of the project was to create an API that would allow users to shorten long URLs and convert short URLs back to their original URLs using hashing of the long URLs and storing them in database.
- Utilized the Spring Data MongoDB module to simplify the interaction with the MongoDB database.

ACHIEVEMENTS

- [Hackerrank](#) Gold Badge (5*) Java and Silver Badge (3*) for Problem Solving
- Solved 250+ problems on [Leetcode](#).
- Secure 4-star rating during the Cognizant Appraisal cycle.

SKILLS

Languages :

Java, HTML, CSS

Technology/Framework :

Spring Boot, Maven, Hibernate, RabbitMQ, Angular, JUnit, GitHub, Docker, Jenkins

Database Design:

MySQL, MongoDB

Software Development Methodologies:

Agile/Scrum

Project Management Tools:

Rally
